

## **2012 Equine Prohibited Substances List** **Controlled Medication**

**\*\*\*Including any other substance with similar chemical structure or similar biological effect(s)\*\*\***

<b>SUBSTANCE</b>	<b>ACTIVITY</b>
17-Alpha-Hydroxy Progesterone FEMALES	Hormone
Acepromazine	Sedative
Acetazolamide	Carbonic Anhydrase Inhibitor
Acetylcysteine	Mucolytic [Not listed]
Albuterol (Salbutamol)	Bronchodilator
Altrenogest (in males and geldings)	Oestrus suppression
Amantadine	Dopaminergic
Ambroxol	Mucolytic
Amcinonide	Corticosteroid
Aminocaproic acid	Haemostatic (anti-fibrinolytic)
Aminophylline	Bronchodilator
Aminorex	Parasympathomimetic
Antazoline	Antihistamine
Atipamezole	Alpha adrenergic antagonist
Atropine	Anticholinergic
Azatadine	Antihistamine
Beclomethasone	Corticosteroid
Benzocaine (Ethyl Aminobenzoate)	Local anaesthetic
Benzquinamide	Antihistamine
Betamethasone	Corticosteroid
Bethanechol	Parasympathetic agonist
Bromhexine	Mucolytic
Bromodiphenhydramine	Antihistamine
Brompheniramine	Antihistamine
Buclizine	Antihistamine
Bupivacaine	Local anaesthetic
Buprenorphine	Opioid
Butorphanol	Opioid
Butylscopolamine	Anticholinergic
Captopril	Angiotensin-converting enzyme inhibitor
Carbamazepine	Anticonvulsant
Carbinoxamine	Antihistamine
Carprofen	Non-steroidal anti-inflammatory drug
Ceterizine	Antihistamine [Alternative spelling]
Cetirizine	Antihistamine
Chlorcyclizine	Antihistamine
Chloropyramine	Antihistamine
Chlorothiazide (Chlorthiazide)	Diuretic
Chlorpheniramine	Antihistamine

**Please be aware this list contains only the Controlled Medications – see also the Banned Substances List**

## **2012 Equine Prohibited Substances List** **Controlled Medication**

**\*\*\*Including any other substance with similar chemical structure or similar biological effect(s)\*\*\***

Chlorproethazine	Antihistamine
Chlorthiazide (Chlorothiazide)	Diuretic
Cinnarizine	Antihistamine
Clanobutin	Choleretic
Clemastine	Antihistamine
Clemizole	Antihistamine
Clenbuterol	Bronchodilator
Clobetasol	Corticosteroid
Clonidine	Antihypertensive
Clorprenaline	Antihistamine
Cortisone	Corticosteroid
Cromoglycate	Antihistamine
Cromolyn	Bronchodilator
Cyclizine	Antihistamine
Cyclophenil	Anti-oestrogenic
Cyproheptadine	Antihistamine
Dantrolene	Muscle relaxant
Dembrexine	Mucolytic
Deptropine	Antihistamine with anticholinergic activity
Deracoxib	Non-steroidal anti-inflammatory drug
Desmethylpyrilamine	Antihistamine
Desorelin	GnRH agonist
Detomidine	Sedative
Dexamethasone	Corticosteroid
Diazepam	Anxiolytic
Dichloroacetate	Lactanase
Diclofenac	Non-steroidal anti-inflammatory drug
Digoxin	Anti-arrhythmic
Diltiazem	Antihypertensive
Dimethyl Sulfone (Dimethyl Sulphone)	Solvent
Dimethyl Sulphoxide (DMSO)	Solvent
Dimethyl Sulphone (Dimethyl Sulfone)	Solvent
Diphenhydramine	Antihistamine
Diphenylpyraline	Antihistamine
Dipyrone(Metamizole)	Non-steroidal anti-inflammatory drug
DMSO (Dimethyl Sulphoxide)	Solvent
Dorzolamide	Carbonic Anhydrase Inhibitor
Doxylamine	Antihistamine
Edrophonium	Angiotensin-converting enzyme inhibitor
Eltenac	Non-steroidal anti-inflammatory drug
Embramine	Antihistamine
Enalapril (Enalaprilat)	Angiotensin-converting enzyme inhibitor

**Please be aware this list contains only the Controlled Medications – see also the Banned Substances List**

## **2012 Equine Prohibited Substances List** **Controlled Medication**

**\*\*\*Including any other substance with similar chemical structure or similar biological effect(s)\*\*\***

Enalaprilat (Enalapril)	Angiotensin-converting enzyme inhibitor
Estrone	Oestrogen
Ethyl Aminobenzoate (Benzocaine)	Local anaesthetic
Felbinac	Non-steroidal anti-inflammatory drug
Fexofenadine	Antihistamine
Firocoxib	Non-steroidal anti-inflammatory drug
Flumetasone (Flumethasone)	Corticosteroid
Flumethasone (Flumetasone)	Corticosteroid
Flunixin	Non-steroidal anti-inflammatory drug
Fluticasone	Corticosteroid
Fulvestrant	Oestrogen receptor antagonist
Furosemide	Diuretic
Glycopyrrolate	Anticholinergic
Guaifenesin	Expectorant
Histapyrrodine	Antihistamine
Hordenine	Norepinephrine stimulant [Higher screening limit]
Hydrochlorothiazide (Hydrochlorthiazide)	Diuretic
Hydrochlorthiazide (Hydrochlorothiazide)	Diuretic
Hydrocortisone	Corticosteroid
Hydroxyzine	Sedative
Hyoscine (Scopolamine)	Parasympathetic
Ibuprofen	Muscarinic antagonist
Indomethacin	Non-steroidal anti-inflammatory drug
Ipratropium	Bronchodilator/ Muscarinic antagonist
Isoflupredone	Corticosteroid
Isothipendyl	Antihistamine
Isoxsuprine	Vasodilator [Higher screening limit]
Ketamine	Anaesthetic
Ketoprofen	Non-steroidal anti-inflammatory drug
Ketorolac	Non-steroidal anti-inflammatory drug
Ketotifen	Antihistamine
Levamisole (Tetramisole)	Immunomodulator [Not listed]
Levocabastine	Antihistamine
Levomethadone	Opioid analgesic
Lidocaine	Local anaesthetic
Lisinopril	Angiotensin-converting enzyme inhibitor [Reclassified from anti-hypertensive]
Loratadine	Antihistamine
Magnesium sulphate (injection)	Sedative
Mebhydroline	Antihistamine
Meclizine	Antihistamine

**Please be aware this list contains only the Controlled Medications – see also the Banned Substances List**

## **2012 Equine Prohibited Substances List** **Controlled Medication**

**\*\*\*Including any other substance with similar chemical structure or similar biological effect(s)\*\*\***

Meclofenamic acid	Non-steroidal anti-inflammatory drug
Medroxyprogesterone	Hormone
Medrylamine	Antihistamine
Meloxicam	Non-steroidal anti-inflammatory drug
Mepivacaine	Local anaesthetic
Mepyramine (Pyrilamine)	Antihistamine
Metamizole (Dipyrone)	Non-steroidal anti-inflammatory drug
Methadone	Opioid analgesic
Methapyrilene	Antihistamine
Methdilazine	Antihistamine
Methocarbamol	Muscle relaxant
Methoxypromazine	Acepromazine Derivative
Methylprednisolone	Corticosteroid
Methylsalicylic acid	Non-steroidal anti-inflammatory drug
Metoclopramide	Anti-emetic
Moexipril	Angiotensin-converting enzyme inhibitor
Naproxen	Non-steroidal anti-inflammatory drug
N-butyl Scopolamine	Parasympathetic
Neostigmine	Anticholinesterase
Nitroglycerin	Anti-angina
Orphenadrine	Antihistamine
Oxazepam	Anxiolytic
Oxyphenbutazone	Non-steroidal anti-inflammatory drug
Pentoxifylline	Vasodilator
Pergolide	Dopamine agonist
Perindoprilat	Angiotensin-converting enzyme inhibitor
Phenindamine	Antihistamine
Pheniramine	Antihistamine
Phenylbutazone	Non-steroidal anti-inflammatory drug
Phenyltoloxamine	Antihistamine
Phenytoin	Anticonvulsant
Physostigmine	Pain relief
Prazosin	Antihypertensive
Prednisolone	Corticosteroid
Prednisone	Corticosteroid
Prifinium Bromide	Antispasmodic
Prilocaine	Local anaesthetic
Procaine	Local anaesthetic
Promazine	Tranquiliser
Promethazine	Antihistamine
Propantheline (Propanthelline)	Antimuscarinic
Propanthelline (Propantheline)	Antimuscarinic

**Please be aware this list contains only the Controlled Medications – see also the Banned Substances List**

## **2012 Equine Prohibited Substances List** **Controlled Medication**

**\*\*\*Including any other substance with similar chemical structure or similar biological effect(s)\*\*\***

Pyrilamine (Mepyramine)	Antihistamine
Pyrimethamine	Antimalarial
Pyrrobutamine	Antihistamine
Quinethazone	Diuretic
Quinidine	Anti-arrhythmic
Quinine	Antipyretic
Romifidine	Tranquiliser
Salbutamol (Albuterol)	Bronchodilator
Salicylic acid	Non-steroidal anti-inflammatory drug
Salmeterol	Bronchodilator
Scopolamine (Hyoscine)	Parasympathetic
Suprofen	Analgesic
Terfenadine	Antihistamine
Tetracaine	Local anaesthetic
Tetramisole	Immunomodulator [Not listed]
Theobromine	Vasodilator
Theophylline	Bronchodilator
Thonzylamine	Antihistamine
Tiludronic acid	Bone metabolism agent
Tranexamic acid	Haemostatic
Triamcinolone	Corticosteroid
Triamcinolone acetonide	Corticosteroid
Triamcinolone hexacetonide	Corticosteroid
Trichlormethiazide	Diuretic
Tripelennamine	Antihistamine
Tripolidine	Antihistamine
Valerenic acid	Tranquiliser
Vedaprofen	Non-steroidal anti-inflammatory drug
Xylazine	Sedative
Yohimbine	Stimulant

**Please be aware this list contains only the Controlled Medications – see also the Banned Substances List**
